SUMMARY

A seasoned **Frontend Developer Specialist** with **5++ years** of experience is a highly skilled professional who specializes in creating and maintaining the user interface (UI) and user experience (UX) of web applications.

I have a strong track record of leadership and technical expertise, making ability is a key contributor to development teams. With proficiency in front-end technologies such as HTML, CSS, JavaScript, and various modern frameworks (e.g., React, Angular, Vue.js), strong in a crucial role in designing responsive and visually appealing web interfaces.

My responsibilities include **mentoring junior developers**, collaborating with designers and backend developers, optimizing web performance, ensuring cross-browser compatibility, and staying up-to-date with the latest industry trends and best practices, experience is well-equipped to **lead complex frontend projects and deliver high-quality user-centric solutions**.
